

The „Broad Base“ of the department „Small batch production“ in Bonn found a gift for the distinction to the L@W-mentors: a milling footprint of graphite.

The following colleagues were involved in production: Dirk Roettgen, Mike Degen, Friedhelm Wolf, Wilfried Pandorf, Erich Zimmer, Sebastian Hilgers, Georg Mueller and Silke Profitlich.

Sincere thanks to all!

Leadership@Work

Following mentors have finalized the L@W modules: (f.l.t.r.) Dr. H. Jaeger, KH Lim, Dr. R. Heumuellner, Dr. R. Janta,Dr. C. Schlosser (left) with trainer P.Schroeder (right)....

...and M. Kokosinski (second from left) with group 5

Group 2 during the workshop

L@W is our competency based training for mid-level managers (Job Families I&II) with supervisory responsibility. We have already introduced you Module I - III. Basic topic of the final L@W review workshop is the reflection and the exchange of the experience made so far.

Content:

The individual action plan is a stable instrument through all the three modules and therefore an essential basis for the exchange of experience. In close collaboration with the group's mentor and the trainer, the participants work on the following topics:

- Analyse factors which are crucial for the success of the development in a leadership position
- Consider their own development during the L@W initiative
- Exchange experiences and best practices with their L@W colleagues
- Compose their next individual development steps

MDWG/Birgitta Dicht

Duration:

1 day

Start:

Since January 2007 six groups have completed the L@W review workshop.
